

DRAMATIC GLAM MAKEUP

avoid lining the waterline with a dark color - this closes off the eye & makes eyes look smaller. using brown shadows/liner on the lash line open the eyes.

structured, filled in brows are necessary to complete a look - make sure to set them too!

defined eyes make this look dramatic. defined lids with eyeshadow and winged liner open & elongate the eyes. mascara is needed as well, but false lashes are optional for added drama.

contour & blush, while both are needed to bring dimension and color to the face, dramatic contour can make one look sophisticated.

depending on the character, a bold lip can really pull a look together - don't forget lip color!
