## Costume Quick Change

For your next project with **COSTUMES**, you will be learning how to do a backstage actor "Quick Change".

The first step of this project is to **visit the costume room** to learn about where various costumes & costume pieces are stored in our OHS space. While in the costume room, your group will **choose the following items** (that "fit" one of your group members.) Then you will practice a quick change with your group.

Choose **ONE** of the lists below, and "pull" (collect) costume pieces from that list.
